

In order to comply with social distancing and the guidelines set forth by the CDC we will be implementing some new rules.

- * Classes will be called 2 or 3 minutes before start time.
- * Students must arrive dressed and ready to swim.
- * Students can change (with or without a parent) in the restrooms at the end of class; showers are still closed at this time.
- * Parents will check their student(s) in and out at the front doors unless there is unfavorable weather which we will then move to the indoor (middle) set of doors.
- * Parents will **NOT** be allowed to watch the lessons (or Swim Team practice) from inside the building unless cleared by the manager on duty. We will have floating staff members to get you if needed.
- * The INF/TOT class and Private Lessons **may** have the parent(s) in the building during class time.
- * Restrooms will **ONLY** be used for toilet use only.
- * **If you, your student(s) or anyone in the immediate family/household are coughing, running a fever or sick we ask that you do not participate in lessons at this/that time. You MUST be 14 days or more clear of symptoms before swimming.**
